

**Name** Nanave  
**Position** Food & Beverage Attendant  
**Employer** Disneyworld Florida

Nanave joined the New Zealand School of Tourism Wellington - Willis Street in January 2014.

Nanave had an interesting start to life. She is a quadruplet who came into the world weighing just 500 grams, and has found tertiary education at times a real challenge.

At our graduation ceremony in December 2014 Nanave was presented with our **Development Award** to recognise all of the effort that she had put into her year and she then decided to sit the entry test for our Level 5 Diploma course never thinking she would pass.

She didn't need to worry because all of her hard work paid off and she was happily accepted into the program.

She started our new Diploma course (**The most exciting course we offer**) in February 2015 and throughout her journey this year she has again displayed the determination and passion to be successful. In July Nanave interviewed with **Disneyworld** Florida and was extremely excited to receive the news that she had been successful in gaining employment with them. She departs New Zealand in January 2016 to start a new chapter in her development.

She's a little bit nervous but excited at the same time and can't wait to start her new adventure. She is looking forward to seeing what the world and in particular Disney has to offer, although we are sure that she will do well. Nanave really does demonstrate the fact that you don't need to be the brightest spark in the class, you just need the motivation, passion and determination to achieve your goals in life.

**Well Done!**

**Nanave**
